Clinic Summary Notes

Clinic Topic: Outdated to Innovative: New Uses for Timeworn Teaching Tools – Ann Papenfuss Wing

1. Follow your safe and effective criteria list when developing new uses for teaching tools.

2. Student assessment is critical. For more information about adaptive assessments, check out chapter 2 of the *Adaptive Alpine Technical Manual*. Another helpful tool for assessments is the *Adaptive Instruction Supplement: Diagnoses & Medication Classifications* manual (and the digital version is free if you are a PSIA-AASI member!) You can access both manuals here:

<https://thesnowpros.org/education/digital-manuals-for-every-discipline/>

3. Do you know the “standard” way to use adaptive teaching tools? Refer to the *Adaptive Alpine Technical Manual* for detailed instructions on using adaptive teaching tools.

4. Want to make your own hula-hoop? It’s easy to do and you can create a variety of sizes and weights. Here’s one site I have used for instructions. (Note: I use extra-large garden clippers to cut the tubing.)
