

2024

## **Ski Spectacular Instructor Academy**

**Hosted by The Hartford Ski Spectacular  
December 9-12, 2024**

### **Clinic Summary Notes**

#### **Clinic Topic:** Bi-ski Progressive Teaching and Tethering

1. Proper assessment and set up of the biski will make the time on snow more comfortable and enjoyable for the student and make your job as the tetherer/instructor easier.
2. Determine which fundamentals your student needs to develop and plan practice activities aimed at that development.
3. Identify the proper outrigger set up to promote maximum independence for your student whether fixed, hand-held, or mixed outrigger use.
4. Setup practice activities and drills to develop your students skills to develop effective skidded and carved turns, with and without support from a tetherer.
5. Use proper tethering techniques when tethering.
6. Always maintain safety while working on student skill development.
7. We want to set our students up for success while also promoting maximum independence.
