Sports make us more — more determined, more powerful, more ourselves.

About

Since 1956, Move United has been redefining disability by providing year-round sports and recreation opportunities to people with disabilities offering more than 70 different adaptive sports. Through our national network of more than 240 community member organizations, Move United serves over 120,000 individuals with disabilities of all ages each year.

Move United's vision is that every person, regardless of ability, has an equal opportunity to participate in sports and recreation in their community. Our mission is to provide national leadership and opportunities for individuals with disabilities to develop independence, confidence, and fitness through participation in community sports, including competition, recreation and educational programs.

Why? Real Connections

- 1 in 4 American's have a disability yet they are underserved by products and services.
- This equates to over \$13 trillion of un-tapped market potential your business can access.
- Move United offers large scale adaptive sports events for your brand to reach people with disabilities, including amputees, spinal cord injuries, neuromuscular, visual impairments/blind, deaf or hard of hearing, and more.
- Product accessibility differentiates you from your competitors and often results in improvements for everyone.
- Unlike trade shows, our events offer a highly personalized opportunity for connectivity where people gather to recreate, compete, exchange ideas and to innovate.
- Opportunity for real-time product feedback and evaluation.
